A Full Schedule of Events & Interaction with ACBL Pros

Bridge has become a bidder's game! Getting bids in early and disturbing the opponent's auction can make it much more difficult for them to find the optimal contract. An undisturbed One No Trump opening will almost always find the best contract! Interference makes that much more difficult. The DONT convention is one of many options to consider when overcalling an Opening No Trump bid. This convention allows the overcaller to keep the bidding at the lowest level possible while still creating a disturbance. It allows you to come in with as few as 8 points! It is best used when the overcaller is distributional with either a long suit or has a two-suited hand. We will discuss the overcaller's and responder's bids and review the types of hands that are best for making this disturbance.
